

MATTEO ROSSI

Verona

2019

In 2014, Matteo Rossi created the “Matteo Rossi - Smart Furnishing” Lab to take “Made In Italy” furniture, product and interior design into the future. It was out of his desire to reinvigor 3erre, the founding company of three generations, and fuse it with dynamic and bold ideas.

The artisanal traditions of craftsmanship in woodworking, handed down from his father and grandfather have provided a strong foundation to give integrity and quality to the furniture through his collaborations with design professionals.

P.IVA: 00015940281

The “Matteo Rossi - Smart Furnishing” is born as a service to develop and realize the ideas of architects, designers and companies by creating single pieces, collections of interiors.

Collaboration and synergy are the leading philosophies to develop our projects by selecting suitable materials and estimating costs before the creation of the actual piece.

“Matteo Rossi” Lab is a division of “3erre”, a company with sixty-years experience rich in tradition and craftsmanship that, by investing in the latest equipment, ensures a final product of excellence.

“Matteo Rossi” has produced elements of interiors with a high level design for contemporary settings, using materials and accessories of the highest quality.

*A design embroidered on the wood: in every stretch we find the hand of the Venetian master cabinetmaker.
Drawings that reveal citations of those impressed on glass in nearby Murano, in Venice, the heart of Made in Italy.*

Straight lines run through long, agile, young legs and create modern shapes that enhance the pristine purity of the woodworking and polishing... the classic that transforms and translates the past, makes it exist and uses it to trace the future.

Decorated, as in a dream with an ancient flavor, the wood shines under the finish as if to indicate the layers of time they have formed the very idea of a wonderful Venetian villa. The fresh, romantic effect of each piece is a token that recalls the relevance of Italian art and architecture.
