Home & Contract

Opposites attract. HORM and CASAMANIA have always had two different souls, imbued with a pure passion for research, quality and design. This catalogue represents the starting point of a new project: to make these historical champions of the Made in Italy production talk to each other, in the wake of their identity. HORM is the most rigorous, formal, elegant style, characterised by the skilful use of pure materials, such as wood, stone, marble and glass. CASAMANIA has always played with irony, formal irreverence, the desire to break the mould in the name of functionality and research. The first has always been and will continue being an icon of style and refined elegance in the HOME, the second a model for the CONTRACT market. However, opposites attract, merge and multiply, offering infinite solutions of style, use and arrangement. Two identities that together want to break the rigid barriers of the market, placing People in its many activities at the heart of the project: thinking, sitting, resting, eating, working, studying, playing, sleeping, loving, talking. HORM and CASAMANIA: Home & Contract.
