

Marshmallow è una seduta leggera ed armonica, dalle forme arrotondate e caratterizzata da un particolarissimo design. La sua scocca, oltre ad essere estremamente ergonomica ed avvolgente, presenta nella parte superiore dello schienale una morbidezza nuova e del tutto inusuale. Grazie alle sue sperimentazioni e ricerche sul PU integrale soft touch, la Tonon è riuscita ad eliminare la struttura metallica in questa parte dello schienale, ottenendo un piacevolissimo effetto, come un marshmallow. Si ricorda che il PU integrale soft touch light e' molto resistente, waterproof, non tossico e fornibile in tantissimi colori

Marshmallow is a light and harmonious chair, with a rounded form and an extraordinarily distinctive design.

The extremely ergonomic and snug shell has got a new, unusual softness in the upper back.

Thanks to the research and tests on the integral PU soft touch, Tonon succeeded to eliminate the metal frame in this part of the back, getting a very pleasant effect, like a marshmallow.

Soft touch light is an extremely resistant and waterproof material, 100% hygienic, non-toxic and available in a wide range of colors.
