

TRÍMM
COPENHAGEN

QUALITY AND FUNCTIONALITY

TRIMM Copenhagen is a Danish design company, that makes lounge furniture and interior for people who prioritize comfort, quality and design. The simple and effortless design is focused on multi-functionality and convenience. Making them perfect for modern and innovative communities such as offices, schools, venues and everything in between.

Because of its light weight and handle, the furniture can easily be moved around and used for many purposes. The filling; is EPS-beads, has an isolating effect that creates a natural warmth when you sit in the furniture. Because of the high-quality materials such as Sunbrella Plus and Sunbrella In&Out, our lounge furniture can withstand all weather types. This means you can leave them out all year, as they are also water repellent, UV/fade resistant and algae resistant. Because of the soft touch of the fabric, the furniture is suitable for indoor use as well. Our products are produced in Europe to secure a high quality, short production time and proximity with our factories.

With our lounge furniture, we want to create an informal atmosphere and challenge the way people interact and spend time together - inside and out. Our mission is to strengthen the relation between people and form a higher quality of life, both on a professional and personal level.

1032-0	Terrazzo Tray	White	55 cm x 3 cm	6 kg
1032-1	Terrazzo Tray	Black	55 cm x 3 cm	6 kg

MATERIALS

Sunbrella Plus® & Sunbrella In&Out

Sunbrella Plus® is a performance material, originally designed for boats. Therefore Sunbrella Plus® is extremely waterproof, thanks to the acrylic coating on the backside (It is three times more water repellent than any other outdoor materials from Sunbrella). At the same time, Sunbrella Plus® is breathable, which prevents condensation and moist. It has maximal resistance against mold, because the acrylic coating contains a special fungus killing mixture of saltwater.

Sunbrella Plus® is also UV resistant and the color fastness is an 8 on a scale from 1-10, where 10 is the best.

The material doesn't need any other maintenance than simple cleaning. It is very easy to maintain, and most stains can be removed with water and mild soap. For more stubborn stains, bleach can be used, without fear of damaging the fabric or removing the color. One of the best ways to keep the fabric nice, is to keep of the deep cleaning by maintaining the fabric correctly. This can be done by brushing of dirt, before it soaks in, and wipe of stains when they happen.

Leather

Cocoon:

Our leather is 100% grain leather. Vegetable-tanned leather is very susceptible to dirt and stains. Most vegetable leather will get "patina" and darken over time, other becomes lighter (fade).

Satellites & Tiny Moon:

Our Satellite Leather stools and Leather Tiny Moon are made with Carmo leather which has a well-built texture. Its excellent durability makes it very suitable for the contract market. Available in a wide range of colours.

CUSTOM COLOURS

Products can be ordered in a custom color, if indicated on the product page. The delivery time is typically 5-6 weeks and there is a fixed color changing fee pr. color. Samples of textiles and colours can be sent upon request. Remember to notify us about the desired color when ordering.

FIRE RETARDANT

Our lounge furniture is also available in FR fabrics on request. We use Sunbrella NATTE applied with a fire retardant backing. The Products made of FR NATTE from Sunbrella meet (passes) the requirements specified in following tests for Furniture and Furnishings fire safety regulations 1988:

BS 5852: Part1 : 1979 - Fire test for furniture / Ignition source: Smouldering cigarette

BS 5852: Part 2 : 1982 / Ignition source: Source 2 (inside materiale)

GENERAL CLEANING INSTRUCTIONS

Sunbrella Plus® & Sunbrella In&Out

- First brush off loose dirt.
- Hose down fabric thoroughly. Water should be cold to lukewarm and never more than 100°F/38°C.
- Prepare a cleaning solution of water and mild soap (No detergents).
- Use a soft bristle brush to clean. Allow cleaning solution to soak into the fabric.
- Be sure to rinse thoroughly to remove all soap residue.
- Allow Sunbrella to air dry only. Never apply heat to Sunbrella fabrics.

Leather

- Wipe with a damp cloth.
- Do not use detergent, bleachers or scourers.
- To extend the Cocoon Leathers lifetime, we recommend using leather grease or leather oil.

DEEP OR STUBBORN STAIN CLEANING

Sunbrella Plus®

If stubborn stains or mildew persist, you can use a diluted chlorine bleach/soap mixture for spot cleaning. Protect the area around the Sunbrella fabric when using a bleach solution – bleach may discolor non-Sunbrella fabrics. Always rinse Sunbrella thoroughly in order to completely remove bleach.

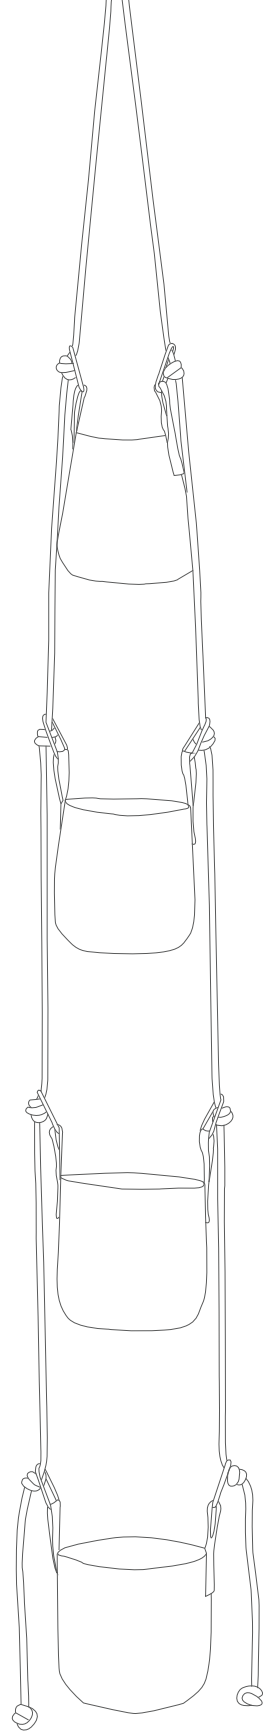

HAND WASH: Mix 100 ml chlorine bleach with 50 ml of mild soap and one 4 l of water. Clean with a soft bristle brush. Allow mixture to soak into the fabric for up to 15 minutes. Rinse thoroughly until all soap residue is removed. Allow to air dry. Repeat if necessary.

FEATURES - OUTDOOR LOUNGE FURNITURE

All products designed by Rikke Gjørland.
